PHINMA University of Pangasinan | August 2023 - Present

- Specializing in Business Informatics
- Cloud Programming as the IT Elective 4

## RELEVANT EXPERIENCE

As of today, this student doesn't have any relevant experience.

## PROJECTS

### LOCALWORKS: A WEB-BASED SUSTAINABLE JOB MATCHING PLATFORM

Capstone Project | Jan 2026 - Nov 2026

Visual Studio Code | MongoDB Compass | Postman | Node.js | Express.js | React.js | TypeScript | Github Desktop | REST APIs | Tailwind | AWS

Worked with the team to design and develop a web based application to simplify the process of job application and hiring workers.

- Focusing more on getting the job done rather than displaying styles.
- Ensures that workers can apply for jobs and employers can hire workers without relying on traditional methods.

### INVENTORY MANAGEMENT SYSTEM

Personal Project | May 2025 - Jun 2025

Visual Studio Code | HTML | CSS | Bootstrap | JavaScript | Postman | Node.js | Express.js | React.js | REST APIs

Built an Inventory Management System without a specific title provided, focusing on building full-stack skills.

- Stores users, products, categories, etc.
- Practicing connection of both the front-end and the back-end.

### HUNGRYME: A FOOD DELIVERY APP

Application Development Project | Jan 2025 - Apr 2025

HTML | CSS | JavaScript | PHP | Kotlin | Sublime Text | Android Studio

Built a local food delivery app for restaurants that weren't relying on applications for marketing their product.

- Stores products, users can buy items, and pay on cash.
- Includes both Mobile and Web.

## ACTIVITIES

### SPEEDTYPING COMPETITION & HOMEBREW

CITE-FEST 2K24 | September 2024

- Participated at the Homebrew since September 2024.
- Worked with a partner during the competition
- Joined the speed typing test since September 2024.
